The editor of the organ is evidently anxious to throw the election of President into the House of Representatives. He spends about a column and a quarter to make out that there i no danger, unless the Democrats of the House vote for Fremont:

not for Fremont:

The election in the Housels required by the Constitution to be by States, the whole desection from each tate having one voe; thus New York and Fiorid anch sive one vite, and D lawre and Scorpia each or one vite. There are thirty-one States, said excitient or Freesolt States, and fifteen Southern of lave olding State, and the votes of sixteen of the pre-required for an election. The Representatives is congress from lown are equally divided between the States land the said the

After getting along in his usual juggling style the organ-grinder concludes that the Democrats intend, if the election goes to the House, to elect Fremout, He save :

There is no need that the election should go to the H u e of Representatives, and we may lleaven it may not go the re, since we are as up distinct forgans and earliers of the limocratic pasty has there is danged that in au han event Fremont will be elected by Demonstrate which we have the views of the state of the s

wates most that they can effect by voting for Buchanar thr w the lection into the House of Representa where we are assured by Democratic leaders and is, there is danger of the election of Fremont by easi treason of Democra ic Representatives.

Far gone in mendacity a man must be, who can deliberately pen such sentences as these two. It is a base falsehood that any Democrat ha said, anywhere, or at any time, that Democrat would assist in electing Frement. The whole country knows better. But they do understant where the danger comes from, if the election goes the efforts of Sam. But how stand the three free Damperat is contested, and the case is not yet de cided. That his scat will be declared vacan when a vote is wanted, there is no doubt. The Know-Nothings and Republicans had a majority at the Congressional election lately held in that district, and their united vote elected a freedom shricker ever Hall, the Democrat who now holds the contested seat in the present Congress. It is easy, then, to see how this vote can be seeured. This makes fifteen States for Fremont Then there is Doiaware, with one vote, and one man to cast it. He is a Know Nothing, and har lately said that he had no objection to Frement Indeed, he has shown all his sympathies to be with the Fremont branch of the Know-Nething

The reader will see very plainly that Frement' election, if it goes into the House, is reduced went it, except the success of the Democratic candidates in both the districts in Illinois, against the combined vote of the Fillmore and Fremont men in those districts. One of these districts is largely Black Republican, or has been so, and the success of the Know-Nothing and Black Republican candidate is highly probable, if not certain. The Know-Nothing organ-grinder knows this per-Union, the success of Fremont before the House, one man, a Know-Nothing member of Congress from Delaware; and, in our judgment, his vote is difference between parties, every man knows, Callen, of Delaware, were a Democrat, nobody would think of his voting for Fremont. He would present an insurmountable obstacle to the ambition of the woolly horse candidate. As it is, the probability is just as strong the other way.

But, besides that, how will the Know-Nothing votes of this State go? If Fillmore's case is hopeless, and a choice is to be made between Fremont and Buchanen, what will be the result? The organ-grinder has himself expressed a preference for this Republican over the Domocratic party. Col. Marshall, the leading Know-Nothing of this State, in Congress, has openly declared that he would not give a copper between Buchanen and Fremont, nor between the principles of the two. But, besides that, how will the Know-Nothing Frement, nor between the principles of the two we are still a "power in the State." Underwood has, we are informed, said the same exigency, if it comes between Buchanen and Freand humbug you into the support of Fillmore.

Well, elected. The States Fillmore is to carry are a they have a very small subject to say a great deal elected. The States Fillmore is to carry are a good piece off, and they have greatly diminished about, although he is as great a knave as his in number. The organ-grinder assured his reading number. ers, after a minute and painful survey of the whole field, that Fillmore was to carry all the Southern States except two, and a large list of the free States except. Why doesn't the organ claim Indiana, Illinois, Pennsylvania, Ohio, &c. Be had just as well claim them as those he has

Which is the Sectional Party! We have a constant cry of the Know-Nothings, that the Democracy are a sectional party. They are a compromising party. They will rectore confidence; only give them the offices. Now, the Democratic party has already settled the question between North and South. They have made the compromise so much talked about. They have no issue between North and South to settle. They have agreed that Congress shall not interfere with slavery in the territories; that the people of a Territory shall settle the slavery question for themselves; that neither Congress, nor the States, the Territory. This is simple, just, and constitutional. The South all agreed to it, and the Northigence. it is also a favorite family journal, hence ern Democracy supported it. That is the policy. It has been made the law, and it will stand. So the Democratic party North and South have determined, and they will stand by it.
